

EnergyElite Inventory Management

Bulk plants, terminals, convenience stores, cardlocks, consignment accounts and trucks....all inventory locations. EnergyElite translates into tracking, from an accounting and physical perspective, at each of these locations on a daily, weekly or monthly basis.

Fuel Inventory Features

- ◆ Autoload and import stick and meter reading price from location equipment
- ◆ Automatic tank reconciliation referencing meter readings, stick readings, sales, transfers, ect.
- ◆ Inventory sites can include terminals, bulk plants, cardlocks, convenience stores and transport vehicles
- ◆ Flexible costing at each inventoried location for each inventoried product
- ◆ Company-owned terminals can be setup as points-of-pickup in bill of lading input for automatic inventory reduction
- ◆ Serialized tanks
- ◆ Provisions for blending on purchases and sales
- ◆ Vendor fuel contract tracking

Fuel Inventory Reporting

- ◆ Tank reconciliation report
- ◆ Liquid product daily reconciliation report
- ◆ Product activity register
- ◆ Fuel purchases journal
- ◆ Vendor purchase analysis
- ◆ Inventory comparison report
- ◆ Transfer receipt report
- ◆ Inventory evaluation report
- ◆ EPA tank report
- ◆ Vendor contract fulfillment report
- ◆ Outstanding bill of lading register

Giving the user the tools to spend more time analyzing and less time with manual data entry means providing solutions not just features. A complete component of the core General Ledger, the accounting of inventory variances, cost and valuation are seamless and effortless.

Developed with you in mind for ultimate flexibility.
